

## **Atmospheric Sciences 5230**

### **Exercise #3**

This exercise is about severe convection and mesoscale convective systems, including squall lines, bow echoes, mesoscale convective complexes, and MCSs and NWP. Completion Time: 3.00 - 4.00 h.

1. Complete the Met-Ed module Severe Convection: Mesoscale Convective Systems, complete the quiz at the end, and submit your score by email.
